

Use Cart Tracker™ and you will know the answers...

Cart Tracker™ is a powerful, yet easy-to-use solution to manage your cart fleet.

Track Your Investment

Material handling carts can significantly improve the efficiency of your shipping operations. Some customers may even require you to use shipping carts for deliveries to them. You decided to make a significant investment for your shipping carts so that your business could be more competitive in today's marketplace.

Now you need to manage and track your fleet of shipping carts to ensure a good return on that investment. Cart Tracker™ was designed specifically to:

- Manage your cart fleet using state-of-the-art barcode labeling and scanners.
- Automate your shipping, tracking, and return processes.
- Be easy to use by any of your shipping dock employees.

Get The Information You Need

Managing your cart fleet adds another task to your already busy schedule. Cart Tracker™ can give you answers to many of the questions you might have.

- Do your drivers know how many carts to pickup from each customer on his route? *Cart Tracker™ can prepare a route sheet listing each cart by serial number that should be at a given customers site.*
- Do you have carts that never get used? *Cart Tracker™ logs each time a cart is shipped or returned.*
- Do you know how many carts are available to use and how many are at your customers' sites? *Cart Tracker™ maintains a comprehensive inventory of your cart fleet.*
